PROFESSIONAL SUMMARY

Results-driven technical professional with 10+ years of experience optimizing customer support processes, managing IT projects, and implementing data-driven solutions. Demonstrated expertise in troubleshooting complex systems, managing field services, CRM/ERP implementation (Salesforce, Bitrix24), and building AI-assisted automation pipelines in SaaS and logistics environments. Advanced proficiency in Excel, SQL, HTML, CSS, APIs, and Power BI, complemented by strong bilingual communication skills (English C1 Advanced certified). Proven track record of enhancing customer satisfaction, streamlining workflows, and delivering technical solutions that drive business growth.

PROFESSIONAL EXPERIENCE

AI Automation Engineer — Pedimento Template Engine

05/2026 – Present

Transportes Rino / Freelance · Manzanillo, Colima

- Designing and building a Python + LLM API pipeline that generates final pedimento (customs declaration) templates automatically — removing the most error-prone manual step in the broker workflow.
- Training a custom vision/AI model to read low-legibility invoice fields (scans, photos, smudged carbon copies) and map them to the correct pedimento blocks.
- v1 shipped and live in production; now iterating toward v2 with expanded field coverage and confidence scoring on every extraction.
- Early results: less rework from human error, shorter processing time per document, higher throughput per analyst — and noticeably lower operator stress.

Brand & Web Designer — Corporate Identity Refresh

05/2026

CIE · Corporativo Internacional Especializado (Agencia Aduanal) / Freelance · Manzanillo

- Rebuilt the corporate presentation brochure as a clean, minimalist system with a color palette derived from the existing logo — same brand, sharper voice.
- Reworked the content end to end so prospects and existing clients understand the service offering on first read.
- Designed and shipped an animated landing page aligned with the new brochure system.
- Closed the project with a formal rights transfer (carta de traspaso de derechos) handing all design assets back to the client.

TECHNICAL SKILLS

AI & Automation
Python, LLM APIs, OCR / vision models, prompt and pipeline design, AI-assisted coding, process automation.

Data & Analysis
Advanced Microsoft Excel (formulas, data analysis), SQL, Power BI, KPI dashboard development.

Systems & Management Tools
CRM implementation (Salesforce, Bitrix24), ERP configuration, MDM administration, API integrations.

Web & Design
HTML, CSS, responsive website architecture, SEO, e-commerce platform design, Adobe Illustrator, Photoshop, Premiere Pro.

Hardware & Technical Systems
Electrical engineering, electronics, automation systems, operating systems, hardware diagnostics and repair.

AI Data & Content Quality Evaluator

01/2026 – Present

Welo Data / Freelance · Remote

- Lyric Translation Reviewer: review lyric translations for semantic accuracy, cultural relevance, and adherence to platform guidelines.
- Project Saiph — Podcast Content Reviewer (es-MX): classify podcast content using moderation policies, contextual analysis, and metadata validation to improve AI training datasets.
- Scout Search Quality Rater (es-MX): evaluate search result relevance, intent matching, and usefulness against detailed rating guidelines.

IT & Digital Strategy Manager

11/2025 – 02/2026

ACON Worldwide Logística · Hybrid

- Led the strategic acquisition and end-to-end implementation of the Bitrix24 ecosystem as the company's primary technical lead.
- Built custom server-side integrations on the Bitrix24 API to automate complex logistics workflows and extend the platform.
- Wrote programmatic solutions for data management, optimizing server requests and streamlining the quote-to-invoice flow.
- Directed corporate identity strategy — digital assets, motion graphics, and branding materials supporting commercial expansion.

IT Manager

10/2025 – 01/2026

Transportes Rino · Hybrid · Manzanillo, Colima

- Led the end-to-end implementation of Salesforce CRM, including data migration from legacy systems to the new platform.
- Coordinated every project phase: requirements gathering, planning, execution, testing, and deployment.
- Defined the strategic roadmap and key decisions to align CRM adoption with business goals.
- Ran daily project operations — tracked progress, documented activities, and prepared next-day action plans.
- Kept technical teams and business stakeholders in sync so adoption went smoothly.

Bilingual Sales Agent

03/2025 – 04/2025

Avantive Solutions · Guadalajara

- Sold services through cold calls, closing at a 75% call-to-sale rate.
- Processed compensation claims with proprietary system tools, ensuring accurate reimbursements.

Bilingual Customer Service Representative

11/2024

InTouch (Beliveo México) · Guadalajara

- Resolved complex customer inquiries for JCPenney with a 95% first-call resolution rate.
- Processed compensation claims with proprietary system tools, ensuring accurate reimbursements.
- Handled high-volume online order support, cutting average resolution time by 15%.
- Applied technical knowledge to troubleshoot order discrepancies and delivery issues efficiently.

CORE STRENGTHS

Technical Problem-Solving
Exceptional ability to diagnose and resolve complex technical issues with structured, repeatable methodologies.

Customer Relationship Management
Skilled at building rapport and preserving customer loyalty through personalized solutions.

Cross-Functional Collaboration
Experience leading mixed teams of technical and business people to ship integrated systems.

Process Optimization
Talent for identifying inefficiencies and implementing streamlined workflows that measurably raise productivity.

Bilingual Communication
Fluent in translating technical concepts into clear, accessible language for any audience, in English or Spanish.

01/2017 – 01/2020
Analyst programmer technician certification; specialized training in hardware diagnostics and maintenance.

LANGUAGES

Spanish
Native

English
C1 Advanced — EF SET Certificate (efset.org/cert/4WxFUS), The Pyramid School, Manzanillo (2017 – 2020)

Bilingual Customer Service Agent
01/2024 – 04/2024

XtendOps · Guadalajara

- Delivered premium bilingual support across North and South America for HelloFresh and EveryPlate.
- Processed 50+ service inquiries a day with a 98% customer satisfaction rating.
- Executed systematic compensation protocols for damaged or incomplete deliveries.
- Used order management systems to identify and resolve shipping discrepancies quickly.

Project Manager (Front-End Testing)
01/2021 – 12/2022

Bon's Cafe Restaurant · Guadalajara

- Led the development team building a custom e-commerce platform with hierarchical administration.
- Implemented a role-based permission system for employees, managers, and owners, improving operational efficiency by 35%.
- Designed a multilingual interface that lets non-technical staff manage menus, pricing, and images on their own.
- Delivered the project 10% under budget while exceeding the client's requirements.

Web Sales & E-commerce Designer
01/2021 – 01/2022

Materiales Castell · Guadalajara

- Integrated CRM and ERP systems to attract new customers and streamline task management.
- Wrote technical documentation with precise vocabulary and adherence to industry metrics.
- Designed and programmed a responsive website, including the logo and brand identity.
- Increased online conversions by 28% by simplifying the user experience and checkout flow.

Bilingual Agent — WAHA
02/2019 – 02/2020

Teleperformance · Guadalajara

- Retained 85% of customers who were considering cancellation by putting together personalized service packages.
- Sold mobile service lines by showing the cost savings of bundling with Comcast Xfinity.
- Resolved technical support issues with clear, step-by-step troubleshooting.
- Managed billing inquiries and spotted upsell opportunities, raising average revenue per customer by 22%.

Systems Designer
2018 – 2019

Corporativo Internacional Especializado (CIE) · Manzanillo

- Developed targeted advertising campaigns highlighting regulatory updates relevant to customers.
- Used the CRM to segment and engage the customer base, lifting customer retention by 15%.
- Wrote technical documentation with consistent terminology and precise measurement standards.
- Designed and programmed the company website, including complete branding packages.

ADDITIONAL SKILLS
